

# St. Paul's Secondary School Oughterard

Our staff are the foundation of our school and are an amazing group of teachers whose skills and talents are generously shared to make St Paul's the school it is. Their commitment to the students both in and out of the classroom is recognised in the high results our students achieve and the amount of extra-curricular activities, clubs, teams, and activities made available to the students. They support and encourage every student to reach their potential through a happy school experience.
